

2ND NEWSLETTER

We're excited to share some updates and upcoming events with you!

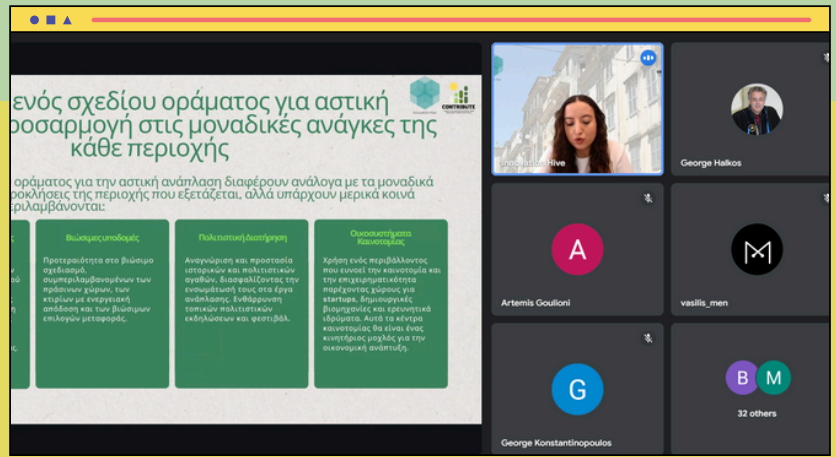

Have you checked out our website yet? It's packed with useful resources and information.

Included in it, is a digital map showcasing underutilized and abandoned places in Spain, Greece, Turkey, Austria and Belgium (our partner countries). Visit the website to explore it and to find out more info about all the places!

We're thrilled to announce that the first result of our project, the Digital Guidebook for designing urban regeneration in abandoned or underutilized areas, will be published on our website soon! Revitalization of abandoned spaces is crucial in Europe, and our guidebook dives into strategies from Greece, Austria, Turkey, Spain, and Belgium.

On April 25th, we hosted a webinar regarding the project's outcomes and the next steps of it. We gathered feedback from all the participants, that will be our guide on how we move forward. Additionally, we had a guest, Dr. Georgios Chalkos, an expert in Natural Resource Economics and Circular Economy as an added value to the webinar that help and gave useful info and resources.

Next steps

We're currently working on developing Education units on social entrepreneurship & urban gardening to empower our youth with essential skills.

Coming up: **don't miss our training activity happening in Larissa in June!**

Stay tuned for more exciting updates and events from the Contribute Project!
