

ABOUT US

The Contribute project is composed of 5 organizations from different countries: Spain, Greece, Brussels, Austria, and Turkey. The aim is to educate young people in urban gardens.

We're Excited to Announce the Start of Development on the Contribute Project Learning App!

Our project team has officially begun working on the Contribute Project Learning App! This intuitive app will feature interactive learning modules, practical guides, and inspiring case studies, all aimed at fostering community engagement and social action. Designed to provide young people with valuable learning resources from the CONTRIBUTE Project, the app will promote sustainable education and raise awareness about urban development.

We're thrilled to create this digital tool and can't wait to share it with you—stay tuned for updates!

OCTOBER NEWSLETTER: PROJECT “CONTRIBUTE”

COMMUNITY ACTION FOR SUSTAINABLE URBAN DEVELOPMENT AMONG YOUNG PEOPLE

Exciting Project Update!

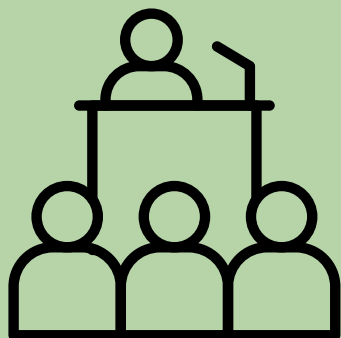

We're excited to share that we've successfully completed Work Package 2 (WP2), setting the foundation for community engagement and training materials. Additionally, we have finished the education modules and their translations under Work Package 3 (WP3). As we move forward, our focus will shift to preparing for local pilot trainings and conferences in each partner country. These events will provide practical learning opportunities and promote community discussions on sustainable practices. We're also working on developing the project's mobile app, which will make our resources easily accessible on the go. Exciting times ahead as we bring our project's vision to life!

What is ahead in Contribute Project?

The Contribute Project has completed the education modules and their translations under WP3. Moving forward, we will focus on activities such as the development of the mobile app, pilot trainings, case study creation, national conferences, and the final conference in Spain.

If you're passionate about sustainable urban development, join us for the pilot trainings and help shape a sustainable future for Europe!
